NEGRO MURDERERS GRANTED REPRIEVE

Governor Postpones Execution Until Supreme Court Acts on Appeal.

BULLETIN IS ISSUED

Insurance Bureau Publishes Much Information—Coming Educational Meet.

Calvin Johnson, convicted of the murder in Alexandria of Walter Schultze, the Chicago artist, will not die in the electric chair to-morrow. Johnson, together with Dick Pines and Eugene Dorsey, under sentence of death for the same crime, were reprieved yesterday by Governor Swanson so to allow the case to be examined by the Supreme Court, before which a petition for a writ of error is pending.

The three negroes, who were tried separately, were condemned to die on succeeding Fridays—Johnson to-morrow, Pines, October 16, and Dorsey, October 22. The reprieve fixes the dates for their execution, unless the court interferes, on November 19, November 26 and December 2, respectively.

Attorney Lewis H. Machen, of Alexandria, represents Johnson. The evidence upon which he hopes to secure a new trial was also used in the conviction of the other prisoners, and for this reason the reprieve was granted to all of the condemned men.

The petition for a writ of error is in the hands of the Supreme Court, but, of course, it cannot be said when it will be acted upon. Should the writ be granted, the case would probably be heard by the court in this city at its November term.

INSURANCE BULLETIN OUT

Information Regarding Insurance Matters Issued by State Department.

Virginia can easily support at least two more new legal reserve life insurance companies and three or four more fire insurance companies. In the opinion of the State Insurance Bureau, this conviction is expressed in Bulletin No. 1 of the department, issued yesterday for the information of the public and of insurance agents and officials.

However, the Insurance Bureau warns the public against investing in the stock of insurance companies in which extravagant expenses are incurred in promotion. "The investor should note," says the bulletin, "that it requires about seven to ten years, or longer, to place a new legal reserve company on a dividend paying basis, yet when the company does become a dividend payer, there is no dividend known that is more secure. A properly managed fire company can be reasonably expected to pay dividends in about five years. The State needs her share of the new insurance companies, both fire and life, and it properly conducted they will prove of immeasurable benefit to the State."

The bulletin contains much interesting matter regarding the insurance business, defining different sorts of companies and their relations to the department. The Virginia companies, both life and fire, are mentioned severally, with short comments as to their condition. Several foreign concerns are named, against which the public is warned.

Seven convictions for incendiarism secured by the department since July, 1908, are detailed, and the names of six others who have been arrested and are awaiting trial are given.

Should the appearance of this bulletin meet public favor and prove of general benefit, it is the purpose of the Bureau of Insurance to issue others, giving general information as to insurance matters.

PLAN FOR GOOD MEETING

Virginia Educational Conference to Be Held in November.

If the plans of the committee in charge are carried out, the meeting of the Virginia Educational Conference, to be held in Richmond November 23-26, will create a spirit all over the State that will be of lasting benefit to the public school system of the State.

This conference includes the State Teachers' Association, the Conference of Division Superintendents, the Conference of Educational Association and the Conference of School Trustees. The State Teachers' Association has the following departments: Department of Colleges and Secondary Schools, Department of Principals, Department of Department of Teachers, Department of Manual Training Teachers.

State Superintendent Eggleston has instructed the county teachers' associations that they should meet at the fall institutes and elect delegates to the State Association, and that part of the time of every institute should be devoted to the Citizens League movement, with the object of having all local leagues in each county elect delegates. The superintendent also hopes that the trustees of each county will send a delegate to the Conference of School Trustees.

The railroads have been asked to give reduced rates for the conference, and every arrangement will be made for the convenience and pleasure of visiting teachers. An attractive program is being prepared.

ROAD TO CONNECT CITIES

Highway Will Be Built Between Alexandria and Washington.

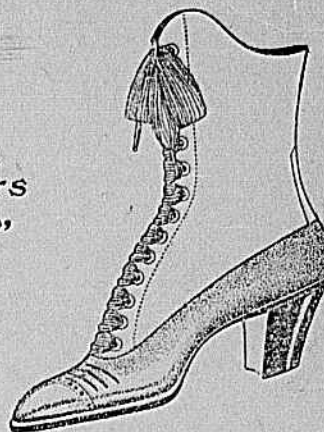

According to the Washington papers the survey of the highway to be constructed between Alexandria and Washington and the necessary data connected with it, have been sent to P. St. Julien Wilson, State Highway Commissioner of Virginia, by County Engineer George E. Garnett, of Alexandria county. However, these papers have not been received by Mr. Wilson, after their receipt he will make up an estimate of the cost of construction.

The movement for this road antedates the good roads bond campaign which is to be formally launched in Alexandria county on October 18. However, should the bonds be speedily voted, the Alexandria-Washington road will doubtless be included in the expenditure of the road fund. As a matter of fact, the county is not expected to bear the burden of construction of this road, even with State aid, for both Alexandria and Washington merchants, who have been seriously inconvenienced, are out to heavy expense since the ferry service between the two cities was discontinued, are expected to contribute liberally toward the project. As soon as Commissioner Wilson's figures are known an active

Day's Proceeds at Fair Grounds Hurried to Bank in Police Automobile. Guarded by a squad of officers, the big police automobile brought to the American National Bank last night shortly before midnight two large

leather cases containing the gate receipts and the other cash proceeds at the Virginia State Fair yesterday. By special arrangement, a couple of bank tellers were present to receive the money, which was locked at once in a safety deposit vault for deposit when the bank opens this morning. The amount brought down was not stated nor was any entry made on the books of the bank, other than the receipt for the two sealed packages, but the amount is understood to exceed \$20,000 in coin and currency. Besides the gate receipts, the money represents a portion of the receipts of the concessionaires, who deposited it at the office of the Fair Association for safe-keeping.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of women's diseases. Women shrink from personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.
